Breaking the Cycle of Poverty through Education

25 students graduate High school

2013 DAF conference was held on August 24th 2013. The returning DAF students were in attendance, and half will be graduating this fall. The conference centered on preparing the students for life after graduation. This year we were honored to have Mr Cheruiyot as our keynote speaker.

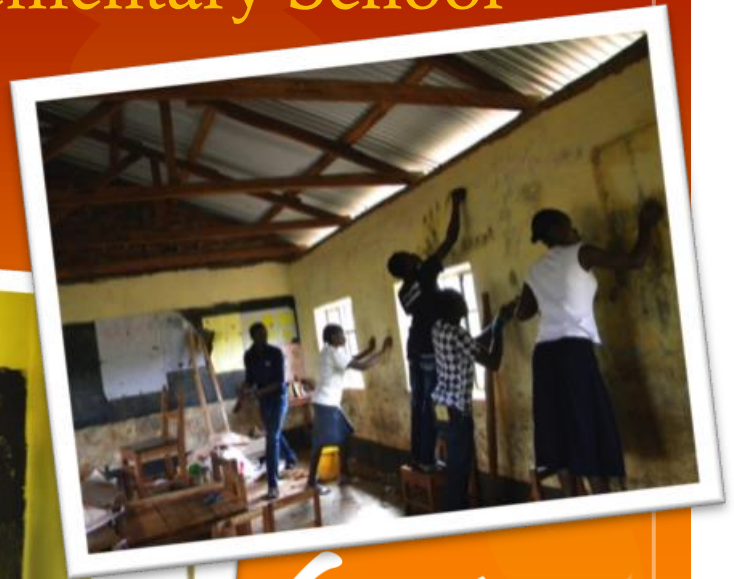

Mr Cheruiyot is the Business Manager at the local Kenya Commercial Bank. He inspired the students to work hard to become employable graduates for the county. He told of his own story of how he grew up in poverty but that did not hinder him from becoming manager at a bank. He remarked "if he could do it so could anyone."

Also discussed was DAF Link, an Alumni Club that was pioneered by our secretary Beverly, and offers a support system for DAF graduates pursuing a college education.

DAF LINK Paints Elementary School

Our 2013 Community Service Project was at a local elementary school . DAF College students painted classes for 1st and 2nd graders. A bright yellow paint was chosen and new artwork was created for the walls.

Finally at the end of this year we say goodbye to our graduates who have been with us for 4 years of their high school life. Before they get their High School Certificates, the students must sit for the national exit exam called the Kenya Certificate of Secondary Education (KCSE) Exam, which are administered from October to November. From all of us at DAF we say congratulations class of 2013!
